

Empowering the Agriculture Sector with High-Quality, Reliable Solutions Made in Saudi Arabia

The Big Bag Company (**BBC**) is a proud Saudi manufacturer and a leading provider of industrial and environmental solutions, offering a specialized range of products designed to support agricultural operations across Saudi Arabia and the Middle East. We are committed to enhancing agricultural productivity by delivering high-performance, eco-friendly, and durable solutions tailored to farming needs.

With **over 30 years** of experience, we understand the unique challenges faced by the agriculture sector, including the storage and transport of fertilizers, crop protection, and agricultural **waste management**. Our engineers have developed a range of heavy-duty reusable bags and environmental protection products that enhance **operational efficiency**, **sustainability**, and **safety** in demanding agricultural environments.

Designed for tough agricultural conditions, our solutions protect your team, your farm, and the surrounding environment.

Eco friendly

Reusable and sustainable designs that contribute to environmental protection.

Safety Compliance

Meets all relevant safety standards.

Reliability

Durability and consistent performance.

Efficiency

Designed for quick deployment and ease of use.

Heavy duty Reusable all-purpose jumbo bag

Durable, heavy-duty bulk bags designed for the efficient storage and transportation of fertilizers, seeds, grains, animal feed, and compost. Available in various sizes and specifications to meet different farm needs.

Water Tanks

Portable and easy-to-use water tanks designed for farms. Perfect for storing water for irrigation or livestock. They are quick to set up, made from strong materials, and work well in remote or off-grid locations.

Agricultural Waste Containment Solutions

Robust containers for the safe collection and disposal of organic waste, plant residues, and other farm by-products, ensuring a cleaner and safer working environment.

Custom Equipment Covers

Protective covers made from reinforced plastic or woven fabric to shield crops, equipment, and supplies from rain, wind, and UV exposure.
