

## Empowering the Construction Sector with High-Quality, Reliable Solutions Made in Saudi Arabia

The Big Bag Company (**BBC**) is a proud Saudi manufacturer and a leading provider of industrial and environmental solutions throughout the Middle East. We are dedicated to supporting the construction industry, infrastructure, and urban development projects with innovative, high-performance products that prioritize safety, efficiency, and durability on construction sites.

With **over 30 years** of experience, we recognize the challenges of construction environments, which is why our engineers developed a specialized range of durable, heavy-duty FIBC bags and advanced spill containment products that enhance **Operational Efficiency, Sustainability, Safety & Compliance**. Engineered for rugged conditions, our products ensure the safety of your team and materials.

### Eco friendly

Reusable and sustainable designs that contribute to environmental protection.

### Safety Compliance

Meets all relevant safety standards.

### Reliability

Durability and consistent performance.

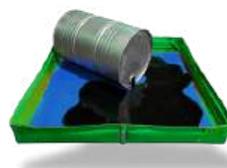

### Efficiency

Designed for quick deployment and ease of use.

Heavy duty Reusable all-purpose jumbo bag

To ensure the safe delivery and storage of your materials while protecting your team and the environment.

Spill Containment Tray

Rapid deployment sponge sidewall trays and heavy-duty fold-down side mats for effective spill management.

Sponge Sidewall Trays

Durable trays with sponge-lined walls that help maintain safety and organization by containing spills and hazardous liquids on construction sites.

Custom Equipment Covers

Durable covers designed to protect construction equipment from dust, moisture, and harsh weather on active job sites.
