

Heavy-Duty solutions for Construction Sector

B2 Flex is a proud Saudi manufacturer and a leading provider of engineered solutions for the construction and infrastructure sector across the Middle East. We specialize in bespoke PVC-based systems designed to support critical site operations, material handling, environmental protection, and on-site safety requirements.

Leveraging advanced **high-frequency welding technology**, our products deliver exceptional mechanical strength, abrasion resistance, UV stability, and long-term durability — ensuring reliable performance in demanding construction environments, from heavy-equipment zones to large-scale civil and industrial projects.

Our solutions are deployed across **infrastructure developments, industrial construction sites, roadworks, utilities projects, and large contractor operations**, supporting safe workflows, environmental compliance, and efficient site management.

Trusted by major industry leaders including **Aramco and SABIC**, B2 Flex provides high-quality, precision-engineered products that help contractors, developers, and EPC companies enhance safety, reduce operational risks, and maintain compliance with stringent construction and environmental standards.

Why we stand out?

Eco-Friendly

Sustainable products that reduce carbon footprint

High Quality

Built with industrial-grade materials for durability, safety, and reliability in extreme conditions

Scalable Capacity

Modern facilities ready for both standard and high-volume production

Compliance & Safety

ISO-certified and manufactured under strict quality controls

Cement truck diaper

The Cement Truck Diaper provides a simple, effective, and professional solution that protects your fleet, your clients, and the environment—while reinforcing your company's commitment to clean, responsible operations.

Secondary Containment

Heavy duty secondary containment solutions, designed to provide reliable spill protection for barrels, tanks, trucks, Manufactured in standard and customized sizes.

Custom Covers

Our custom covers are manufactured using the highest quality UV and chemical resistant materials. The materials are durable and long lasting. The covers are tested in the harshest conditions .
