

Heavy-Duty solutions for Environmental Sector

B2 Flex is a proud Saudi manufacturer and a leading provider of engineered solutions for environmental protection, coastal management, and industrial sustainability across the Middle East. We specialize in bespoke PVC-based systems designed to support critical environmental operations, pollution control, and coastal infrastructure needs.

Using advanced **high-frequency welding technology**, our products deliver exceptional mechanical strength, UV and saltwater resistance, abrasion durability, and long-term performance — ensuring reliable operation in demanding coastal, marine, and industrial environments.

Our solutions are deployed across **coastal zones, environmental remediation sites, marine facilities, ports, and industrial hubs**, supporting safe operations, spill containment, habitat protection, and compliance with environmental standards.

Trusted by major national entities including **Aramco and SABIC**, B2 Flex provides high-quality, precision-engineered products that help environmental contractors, coastal authorities, and sustainability teams enhance safety, reduce ecological risks, and maintain alignment with stringent environmental regulations.

Why we stand out?

Eco-Friendly

Sustainable products that reduce carbon footprint

High Quality

Built with industrial-grade materials for durability, safety, and reliability in extreme conditions

Scalable Capacity

Modern facilities ready for both standard and high-volume production

Compliance & Safety

ISO-certified and manufactured under strict quality controls

Oil Spill booms

Our heavy-duty Booms floats to keep oil from spreading into or out of a contained area while the skirt hangs below the surface to help prevent spills from creeping underneath.

Secondary Containment

Heavy duty secondary containment solutions, designed to provide reliable spill protection for barrels, tanks, trucks, Manufactured in standard and customized sizes.

Spill Kits and Absorbents

solutions for many environmental challenges: oil spills, land contamination and spill prevention. Provides a full range of 100% eco-friendly products for spill control.
