

Heavy-Duty solutions for Oil & Gas Sector

B2Flex is a proud Saudi manufacturer and a leading provider of engineered solutions for the oil, gas, and petrochemical sector across the Middle East. We specialize in bespoke PVC-based systems designed to support critical field operations, asset protection, and industrial infrastructure requirements across upstream, midstream, and downstream environments.

Using advanced **high-frequency welding technology**, our products deliver exceptional mechanical strength, chemical resistance, UV stability, and long-term durability — ensuring reliable performance in harsh oilfield conditions, refinery zones, and remote industrial sites.

Our solutions are deployed across **drilling locations, production facilities, refineries, tank farms, pipelines, and industrial service hubs**, providing robust containment, environmental protection, and operational efficiency for high-risk applications.

Trusted by major industry leaders including **Aramco and SABIC**, B2Flex upholds the highest standards of quality and consistency — delivering precision-engineered products that enhance safety, reduce operational risks, and support critical oil and gas operations.

Why we stand out?

Eco-Friendly

Sustainable products that reduce carbon footprint

High Quality

Built with industrial-grade materials for durability, safety, and reliability in extreme conditions

Scalable Capacity

Modern facilities ready for both standard and high-volume production

Compliance & Safety

ISO-certified and manufactured under strict quality controls

Heavy duty Reusable all-purpose jumbo

Our jumbo bags offer unmatched Durability and capacity Designed for the safe and efficient transport and storage of various solids and semi solids materials

Secondary Containment

Heavy duty secondary containment solutions, designed to provide reliable spill protection for barrels, tanks, trucks, Manufactured in standard and customized sizes.

Spill Kits and Absorbents

solutions for many environmental challenges: oil spills, land contamination and spill prevention. Provides a full range of 100% eco-friendly products for spill control.
