

Heavy-Duty solutions for Ports & Marine Sector

B2 Flex is a proud Saudi manufacturer and a leading provider of engineered solutions for ports, marine operations, and coastal industrial zones across the Middle East. We specialize in **bespoke PVC-based systems** designed to support critical port activities, cargo handling operations, and maritime infrastructure requirements.

Using advanced **high-frequency welding technology**, our products deliver exceptional **mechanical strength, UV and saltwater resistance, abrasion durability, and long-term performance**—ensuring reliability in demanding marine and port environments.

Our solutions are deployed across **commercial ports, container terminals, bulk-handling facilities, shipyards, and coastal logistics hubs**, supporting safe operations, environmental protection, and efficient material handling.

Trusted by major industry leaders including Aramco and SABIC, B2 Flex provides high-quality, precision-engineered products that help port operators, marine contractors, and logistics companies enhance safety, reduce operational risks, and maintain compliance with stringent port and maritime standards.

Why we stand out?

Eco-Friendly

Sustainable products that reduce carbon footprint

High Quality

Built with industrial-grade materials for durability, safety, and reliability in extreme conditions

Scalable Capacity

Modern facilities ready for both standard and high-volume production

Compliance & Safety

ISO-certified and manufactured under strict quality controls

Oil Spill booms

Our heavy-duty Booms floats to keep oil from spreading into or out of a contained area while the skirt hangs below the surface to help prevent spills from creeping underneath.

Secondary Containment

Heavy duty secondary containment solutions, designed to provide reliable spill protection for barrels, tanks, trucks, Manufactured in standard and customized sizes.

Custom Covers

Our custom covers are manufactured using the highest quality UV and chemical resistant materials. The materials are durable and long lasting. The covers are tested in the harshest conditions .
